^{*1} Please check the latest information and adjust your entry date accordingly.

^{*2} Please note that the schedule and the way we give the orientation may be changed.

2. Submission of application documents

Except the nomination sheet, please submit the rest of application documents through the online application system. Once we receive your nomination sheet, we will send you the instruction guide for online application system. We do

not accept any materials sent by a student. Please ensure that all application documents have been reviewed by coordinator before submission. Also, please use the most updated version of the application documents uploaded on our website.

3. Number of students to be accepted under the exchange agreement

Due to a change in our university's policy for accepting international students, **we are limiting the number of incoming exchange students from each partner university to one or two students.** We appreciate your understanding.

4. Student status at applicant's Home University

All participants must return to their Home University after completing the programs at UF, and continue their studies to get a degree at their Home University. **They are not able to graduate or obtain any degree from their Home University while they are enrolled at UF.** This is also related to the eligibility for the JASSO scholarship mentioned below.

5. Issuance of transcript

UF normally issues an academic transcript to each Special Auditing Student at the end of October for spring semester and the end of April for fall semester. In case you require your students to hand in a transcript issued by UF earlier than the above time, please inform the students of that in advance and submit an official letter of request to UF. We will take all early transcript requests into consideration. The earliest possible time of issuance however is end of September

for spring semester and beginning of April for fall semester.

6. JASSO scholarship and report on credit transfer

UF will apply for scholarships under the Japan Student Services Organization (JASSO) Student Exchange Support Program, in which eligible exchange students will receive a monthly scholarship of 80,000 JPY. The result and detailed scholarship information for the currently-recruiting exchange programs will be available in February 2026. Those who show their intention to apply for the JASSO scholarship will be notified of the result soon after the announcement.

Please note that to apply for the JASSO scholarship, exchange students must have earned, in principle, a grade point average (designated by JASSO, refer to page 3) of at least 2.30 on a 3.0-scale in the previous academic year.

7. BUDDY System

We allocate a buddy to all the international students who come to Japan for their first 6 months to help them with their daily life and also in their academics. The matching starts before the student's arrival in Japan to strengthen their connection.

8) Regarding the Student's Health Condition

If there are any concerns about the physical or mental health of the nominated student, please consult with the student in advance and contact us.

In the event of an emergency during the exchange period, we kindly ask for your understanding and cooperation in sharing relevant information, so that we can communicate smoothly with your institution.
