

March 3rd 2021

To All Students,

Takanori Ueda  
President of the University of Fukui

### **Class Policy for the Academic Year 2021**

It is expected to take some time for the spread of COVID-19 to be brought under control, and many of you may be anxious about class methods for the academic year 2021. I would like to inform you that the class policy of the University of Fukui for the academic year 2021 will be as follows.

Please note that this policy is subject to change depending on the future situation. In such a case, I will inform you again and ask for your understanding and cooperation.

#### 1. Class Method

- Classes will basically be conducted face-to-face. On the other hand, distance lectures including ones combined with face-to-face lectures will be conducted when a class has high risk of infection due to the characteristics of the class or when a class is considered highly effective through the means of distance learning. More details about class methods will be informed through the website, Student Portal, or guidance by each school or graduate school as needed.
- Face-to-face lectures will be conducted based on “Class Policy for Preventing the Spread of COVID-19 Infection (Edited on March 3<sup>rd</sup>) (Directed by the University of Fukui Headquarters of COVID-19 Crisis Control)” taking the infection risk into consideration sufficiently by taking measures to avoid 3Cs thoroughly such as determining the capacity for preventing COVID-19 of each lecture room to maintain space between chairs by keeping a meter apart, and conducting classes at less than the capacity.

#### 2. Considerations for Conducting Classes

- As for students who are diagnosed with COVID-19, staying home because of having close contact with someone else who is or having any cold symptoms such as a fever, cough, or general malaise, or not able to attend school because of having a high risk of serious illness due to underlying health conditions, consideration should be given to avoid any

disadvantages of credit approval, such as the use of distance learning or giving extra assignments depending on individual situation.

### 3. Favors for Students

- I would like to ask you to take basic infection prevention measures thoroughly (practicing good hand hygiene, wearing a mask, avoiding shouting) as well as obey “Student Action Guidelines for Preventing COVID-19 Infection (Edited on March 3<sup>rd</sup>) (Directed by the University of Fukui Headquarters for COVID-19 Crisis Control).”

### 4. Thorough Infection Prevention Measures in the case of moving into Fukui prefecture for enrollment or etc...

- Please refrain from taking actions which promotes the infection risk such as having meals with many people after 2 weeks before your visit.
- Please check your health condition thoroughly by taking your temperature every day before and after your visit.
- As for the practical training at the School of Education and the clinical clerkship at the School of Medical Sciences, information will be given from each school.
