1	Dept. of Music	피아노문헌2	Piano Literature2	00986	01	2/2		A형(영)
2	Dept. of Music	피아노교수법2	Piano Pedagogy2	03809	01	2/2		B형(영)
3	Psychology	인간관계훈련실습	Helping Interpersonal Relationships	04528	01	3/3	Tue2~3(), Thu3()	A형(영)
		A study of the interpersonal skills important to improving human relationships. The attainment of effective human relations skills will be emphasized. 이 과목은 인간관계를 향상시키기 위한 중요한 대인관계 기술에 관한 수업입니다. 효과적인 인간관계 기술을 습득하는 것을 강조합니다. 100% 영어강의 수업입니다.						
4	School of International Studies	미국역사의이해	American History	04176	01	3/3	Wed1(), Mon2~3()	A형(영)
		“American History” will be an introduction to the study of the major themes and issues for understanding contemporary American society from a historical perspective. The course will begin with an introduction to the class. The second week covers colonial America. The third week focuses on the sources of the American Revolution. The fourth week focuses on the American Revolution itself and the creation of the US constitution. The fifth week focuses on the expansion of the US westward. The sixth week focuses on slavery in the US and the US Civil War. The seventh week focuses the post-Civil War rapid US economic development. The eighth week is for midterm tests. The ninth week focuses on the Progressive movement and leads into the impact of US participation in the First World War on the US domestically. The tenth week focuses on the Great Depression/New Deal and American participation in World War II during the Roosevelt Administration. The eleventh week focuses on the Cold War and its impact on American politics and government. The twelfth week focuses on postwar US social movements: the American Civil Rights movement in the 1950s, the Anti-Vietnam War and youth movement into the 1960s and 1970s. The thirteenth week focuses on the Right wing reaction. The fourteenth week focuses on the domestic politics of the post post-Cold War US. The fifteenth week will be professor-student conferences.

5	School of International Studies	미국의외교정책	American Foreign Policy	04179	01	3/3	Wed2~3(), Fri3()	A형(영)
		<p>“American Foreign Policy” will be an introduction to the study of the major themes and issues for understanding contemporary US foreign policy. The course will begin with an introduction to the class. The second week covers the US’ s place in the international system in the early twenty-first century. The third week presents the historical context. The fourth week presents different theoretical perspectives for analyzing the US foreign policy-making process. The fifth week focuses on the role of the US Presidency in the US foreign policy making process. The sixth week focuses on the role of Congress. The seventh week focuses on the role of the US foreign policy bureaucracy. The eighth week is for midterm tests. The ninth week focuses the relationship of US public opinion to US foreign policy. The tenth week focuses on role of the media on US foreign policy. The eleventh week focuses on the relationship of social movements and interest groups to US foreign policy. The twelfth week focuses US national security and defense policy. The thirteenth week focuses on US economic statecraft in international relations. The fourteenth week focuses on US foreign policy and transnational global policy issues. The fifteenth week will be professor-student conferences.</p>						
6	School of International Studies	국제통상법	International Trade Laws	04197	01	3/3	Tue2~3(), Thu3()	C형(영)
		<p>근대 국제통상법의 근간이 되고 있는 WTO협정을 자세히 공부한다. 분쟁사례 분석을 통해 학생들의 이해를 높인다.</p> <p>This course takes the students through the WTO Agreement and study the economic effects and implications of the WTO Agreement. Trade dispute case studies will be analysed to facilitate student's understanding.</p>						
7	School of International Studies	국제정치경제	International Political Economy	04204	02	3/3	Mon4~5(), Fri4()	A형(영)
		<p>This course provides an integrated approach to the study of international political economy (IPE). The study of IPE requires a comprehensive understanding of the interaction of politics, economics, and international relations. To that end, this course will examine important issues of IPE such as globalization, international trade, finance, development, etc.</p>						
8	School of International Studies	국제통상영어	English for International Trade	04219	01	3/3	Mon6(), Wed4~5()	B형(영)
		<p>This course is to enhance students' language competency in trade English and relevant concepts and theories in trade practices.</p>

9	School of International Studies	EU연구	Policymaking in the European Union	04745	01	3/3	Mon1(), Fri1~2()	A형(영)
		Students will engage in collaborative in-class work which will promote team-building and interpersonal skills, emphasizing role-playing techniques and approaches with an orientation towards pragmatic application of EU laws, policies and procedures for EU problem solving. CUK students at the conclusion of the course should demonstrate the following: 1) basic knowledge of the institutions and policies of the EU; 2) greater critical understanding of the major European Community policy areas; 3) greater critical awareness of the effect of a dynamic external political environment on the historical evolution of EU policy-making from the perspective of the EU as a European peace strategy; 4) greater critical understanding of the challenges to the European Union to produce effective European international trade and development strategies; 5) greater critical understanding of the evolution of the common space of freedom, justice and peace in the European Union (justice and home affairs) in response to the dynamic international political environment; 6) greater critical awareness of the political challenge of nationalism as a pervasive community political value throughout the world in regional politics and foreign policies; 7) greater critical awareness of the emergence of alternative, transnational values beyond nationalism and of the political strategies which promote them; 8) more effective written and oral communication skills for political analysis for distribution to different stakeholders; 9) greater political strategic negotiation skill, specifically in planning negotiations and in implementing face-to-face and indirect communications.						
10	School of International Studies	국제통상실무2	Practice for International Trade	04748	01	3/3	Tue7~8(), Thu7()	B형(영)
		This course is to enhance students' understanding in relevant concepts, procedures, and real world cases in trade practices.						
11	School of International Studies	국제학영어연습2	English for international Studies 2	04749	01	3/3	Thu1~3()	A형(영)
		EFIS-2 is designed to advance students' English skills by using selected tedtalk videos. Various talks with topics from general interest to international issues will be used to discuss relevant current/international issues.						
12	School of International Studies	국제통상이론2	International Trade Theory 2	04831	01	3/3	Mon7(), Wed6~7()	C형(영)
		국제통상이론1에서 학습한 전통 무역이론 (리카도 모델, 헤셔올린 모델, 무역정책 등)에 이어 신무역이론(New theories of international trade)을 학습한다. 신무역이론은 규모의 경제 전제하에 산업내 무역(intra-industry trade), 독점적 경쟁 모형(monopolistic competition), 글로벌가치사슬(global value chain), 경제통합(economic integration)과 자유무역협정 (free trade agreements) 등의 주제를 통해, 전통 무역이론만으로는 설명할 수 없는 국제통상의 새로운 모습들을 분석한다.

No.	Department	Subject (Korean)	Subject(English)	Subject No.	Class Code	Credits	Days and time / Building and Room number	foreign language level
13	School of International Studies	글로벌시대의환경문제와사회	Environmental Problems and the Society in the Global Era	05992	01	3/3	Thu6~8()	A형(영)
		This course will acquaint students with the social effects of the global environmental issues. Students will learn about how science and technology have both directly and indirectly influenced, and continue to influence, our total environment, the human society and ecology, by understanding facts about the reckless use of technology and chemicals, the issues of 'biodiversity', 'genetically modified produce,' and 'climate change,' etc.						
14	Economics	환경경제학	Economics of Environment	02775	01	3/3	Tue4~5(), Thu4()	A형(영)
		This module, Environmental Economics, aims to provide a balanced and rigorous training in modern theories and techniques in understanding the topics related to the environment. The module will take use of economic analysis at the intermediate level and will incorporate real-world examples. The topics covered in this module include basic economic analyses, pollution management, international environmental cooperation, exhaustible resource and renewable resource management.						
15	Economics	거시경제학의이해	Understanding Macroeconomics	03749	01	3/3	Mon6(), Wed4~5()	A형(영)
		This module is designed for understanding the topics of macroeconomics with the practical cases. Students will not only learn the mainstream theories in the lectures but also discuss the real-world policies and events in the seminar.						
16	Economics	경제학세미나 II	Economic Seminar II	03950	01	3/3	Tue1(), Thu1~2()	A형(영)
		The module is designed to help the students to think critically and plan their research in economics. The structure of the module covers the introduction of critical thinking skills, research methodologies and the skills of academic writing and oral presentation. Students will be expected to build a research plan with adequate economic tools on a selected topic.						
17	Public Administration	전략적기획론	Strategic Planning	04658	01	3/3	Tue7~8(), Thu7()	C형(영)
		The aim of this course is to introduce the basic concept and core process of strategic planning and to help experience the whole process of making a strategic plan for an actual organization. It helps students acquire practical skills related to strategic planning and develop strategic leadership public organizations need.						
18	Public Administration	지방재정분석	Financial Analysis of Local Government	05985	01	3/3		C형(영)

19	Physics	열및통계물리학1	Thermal and Statistical Physics1	01282	01	3/3	Tue6(), Thu5~6()	A형(영)
		<p>Thermodynamics is the study of temperature and heat – what they are, what effects they have on system properties, and their relationship with mechanical variables like pressure and work. The theory played an important role in the industrial revolution, where it was used to understand and improve the efficiency of heat engines. Statistical mechanics is the theoretical basis of the thermodynamic laws, in which the temperature of a system is defined in terms of the statistics of its microstates (a microstate of a system is a complete description of the state of all of its constituent particles).</p> <p>Thermodynamics and statistical mechanics have applications in nearly all of modern physics, including solid state and condensed matter physics, astronomy and cosmology. This class will cover the foundations of thermodynamics and statistical mechanics in detail, and look at several important applications.</p>						
20	Physics	물리학의개념과역사	Concepts of physics from historical perspectives	04849	01	3/3	Thu7(), Tue7~8()	A형(영)
		<p>This course will give an an overview of the historical development of science and the origins of current physical concepts and theories. We will focus on questions such as 'how are physical theories discovered and tested?', 'what do physical concepts and theories tell us about the real world', 'why is the scientific method successful?' etc.. This will involve looking at historical examples of how discoveries were made and how theories were formed, as well as a discussion of the philosophy of science.</p>						
21	Physics	고급현대물리학	Advanced Modern Physics	05259	01	3/3	Mon4~5(), Fri4()	A형(영)
		<p>This class will introduce the theory of General Relativity. This is the theory of gravity developed by Einstein to be compatible with the theory of Special Relativity, in particular the requirement that nothing (including the propagation of the gravitational field) can travel faster than the speed of light. General Relativity describes gravity as a curvature of space-time by energy rather than as a force. The theory of General Relativity led to many new important predictions in astronomy and cosmology, such as the existence of black holes and the big-bang hypothesis.</p>						
22	Life Sciences	복원생태학	Restoration Ecology	04058	01	3/3	Mon7(), Wed6~7()	A형(영)
		<p>This course deals with the principles and methods of ecological restoration of degraded ecosystems.</p>

No.	Department	Subject (Korean)	Subject(English)	Subject No.	Class Code	Credits	Days and time / Building and Room number	foreign language level
23	Environmental Engineering	폐수처리공학및실습	Environmental Engineering in Wastewater Treatment and Practice	03961	01	5/3	Mon8~9(), Fri7~9()	B형(영)
		Lecture on theory and practicing technical necessity for "Environmental Engineering on Wastewater Treatment and Practice" which deals with topics about the basic theology and applications of sewage and wastewater treatment technology.						
24	School of Information, Communications and Electronics Engineering	객체지향프로그래밍기초	Fundamentals of Object-Oriented Programming	03268	01	3/3	Tue4~5(), Thu4()	A형(영)
		Presented fundamentals of object-oriented programming class covers introduction to Android applications using Java. Class introduces basis knowledge of Java and Android programming, and helps students to design various Android applications in practice.						
25	School of Information, Communications and Electronics Engineering	무선통신시스템	Wireless Communication Systems	04084	01	3/3	Mon3(), Wed8~9()	A형(영)
		Present the core mobile technologies for up-to-date wireless communication (WC) systems including cellular systems, wireless LANs, WiBro, WSN, RFID, etc. Introduce wireless propagation channel characteristics, channel coding, multiple radio access (ALOHA, CSMA/CD, CSMA/CA, etc), multiple division techniques (FDMA, TDMA, OFDMA, CDMA, etc), and mobile communication systems. Also perform an English-based group (oral presentation) project that would give a chance to improve the communication capability of each student as a global IT engineer.						
26	School of Information, Communications and Electronics Engineering	보안시스템	Security Systems	04863	01	3/3	Tue7~8(), Thu7()	A형(영)
		System security class covers basic topics of information security, practical implementations of the security systems. Basic topics include history of the security, current security techniques and modern security issues, problems and solutions. During the class we will discuss interesting security related topics such as hacking, system access, and information protection.						
27	Department of Media Technology & Media Contents	디지털시대와문화	Digital and The Contemporary Culture	03847	01	3/3	Mon7(), Wed6~7()	C형(영)
		We live in an interconnected, fluid and mobile world where everything around us are becoming digitized. We communicate with people without having to actually meet them and we can download or purchase musics, movies, artworks, books and just about anything conveniently through digital screens. This course will require students to critically engage with topics such as: ubiquitous computing, the Googlization of our lives, how digital media and digital devices are influencing our society and our culture.

출력일시 : 2018-07-18

No.	Department	Subject (Korean)	Subject(English)	Subject No.	Class Code	Credits	Days and time / Building and Room number	foreign language level
28	Department of Media Technology & Media Contents	미디어콘텐츠디자인2	Media Contents Design2	05291	01	4/3		C형(영)
29	Department of Media Technology & Media Contents	문화브랜딩개발실습종합설계	Culture branding development studio	06085	01	3/3	Mon6(), Wed4~5()	C형(영)
		<p>브랜딩은 문화기업의 마케팅 활동에서 가장 중요한 개념의 하나로 인식되고 있으며 브랜드디자인은 성공적인 문화기업의 설계에 있어 매우 중요한 요소이다. 또한 글로벌적인 마인드와 디자인에 관련된 영어의 이해와 회화능력은 세계의 다양한 문화적 기업들과 소통하기 위해서 꼭 필요한 요소이다. 문화기업의 다양한 디자인에 대한 체계적인 접근과 함께 글로벌한 전략이 요구됨에 따라 본 교과목에서는 기본적인 디자인 영문 용어를 활용한 영어강의를 통하여 브랜드 아이덴티티 시스템의 기본적 이론의 인지와 제작과정의 이해 및 CI 디자인, 패키지디자인, 타이포그래피 디자인, 그래픽디자인 등의 실질적인 디자인 프로젝트와 다양한 사례분석을 학습하고자 한다.</p> <p>This course will enable students to understand how branding and design can influence in generating a strong corporate identity for cultural organizations and companies. Each student will gain a new level of understanding and appreciation of how design and communication can not only deliver, but help define a company's message. Through a series of case studies, students will practice essential design skills necessary for developing distinct corporate identity for cultural organizations including, corporate identity design, packaging design, typography design and graphic design.</p>						
30	Financial Engineering Convergence Studies	금융공학입문2	Introduction to Financial Engineering 2	05029	01	4/3	Tue6~7(D510), Thu6~7(D510)	B형(영)
		Through this course, we will learn the basic concepts of financial engineering such as derivatives, risk analysis, the roles of investment banking, and valuation of the complicated modern financial assets.						
31	Global Korean Studies	Korean Business and Management	Korean Business and Management	05550	01	3/3	Mon5~7()	A형(중)
		本課程對韓國的企業經營進行深刻了解						
32	Global Korean Studies	Comparative Cultures	Comparative Cultures	05573	01	3/3	Mon1~3()	A형(중)
		<p>這是一門用中文講的課程。</p> <p>本課程對韓國, 中國, 日本等東亞三國的文化進行比較</p>
